Empatia is inspired by the association between the great glass-blowing tradition and the LED technology of Artemide. High interest in the expression potentials of this material resulted into co-operation with master glass blowers to gain full control of the special suppleness of Venetian glass and to work on the balance between surface and light, between subtle densities and transparencies.

Shade diameters: 16cm, 26cm or 36cm (6.3", 10.2" or 14.2") with 11, 16 and 24W integrated light sources respectively.
